Food Additives

Inulin

CAS: 9005-80-5

Spec: 90% (chicory)

Appearance: White powder

Application: Prebiotic fiber, texture

Package: 25kg bag

Chicory-derived prebiotic soluble fiber.

Vitamin C (Ascorbic Acid)

CAS: 50-81-7

Spec: 99%

Appearance: White crystalline powder

Application: Antioxidant, immunity, fortification

Package: 25kg drum

Essential water-soluble vitamin.

L-Carnitine

CAS: 541-15-1

Spec: 98%

Appearance: White crystalline powder

Application: Sports nutrition, fat metabolism

Package: 25kg drum

Amino-acid derivative for energy.

L-Glutathione (Reduced)

CAS: 70-18-8

Spec: 98%

Appearance: White powder

Application: Antioxidant, brightening, detox

Package: 1kg / 5kg foil bag

Tripeptide master antioxidant.

Allulose (D-Allulose)

CAS: 551-68-8

Spec: 99%

Appearance: White crystalline powder

Application: Low-calorie sweetener, browning

Package: 25kg bag

Rare sugar with ~0.4 kcal/g.

Monk Fruit Extract (Mogroside V)

CAS: 88901-36-4

Spec: 50% / 80% Mogroside V

Appearance: Light yellow powder

Application: Natural high-intensity sweetener

Package: 1kg / 25kg drum

Siraitia grosvenorii extract.

Erythritol

CAS: 149-32-6

Spec: 99%

Appearance: White crystalline powder

Application: Zero-calorie bulk sweetener

Package: 25kg bag

Fermentation-derived sugar alcohol.

Stevia Extract (Rebaudioside A)

CAS: 58543-16-1

Spec: Reb-A 97% / 98% / 99%

Appearance: White powder

Application: Natural zero-calorie sweetener

Package: 1kg / 25kg drum

High-purity steviol glycosides from Stevia rebaudiana.

NMN

NMN (β -Nicotinamide Mononucleotide)

CAS: 1094-51-5

Spec: 98% / 99%

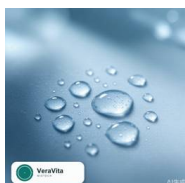

Appearance: White to off-white powder

Application: NAD⁺ precursor, anti-aging, cellular energy

Package: 1kg / 5kg / 25kg foil bag or drum

Direct NAD⁺ precursor supporting cellular energy and healthy aging.
